PermitExpress™ MANAGEMENT SOFTWARE

Parking Management Software that integrates with Banner.

Rydin PermitExpress™

PermitExpress™ enables Universities and Colleges to streamline their parking program.
Users enjoy a variety of features:

- Web-based SaaS
- Online Permit Sales
- User-friendly Dashboard
- Safe and Secure System
- Custom E-Commerce Webpage
- Robust Reporting

Banner® by Ellucian

Banner® can help you deliver the best possible service to every member of your education community, support new operational efficiencies, and advance long-term planning. Banner® focuses on:

- Evolving the solution and technology platform to support the needs of institutions for decades to come.
- Taking advantage of new capabilities sooner, and with less disruption, so you can implement the functionality you want at your own pace.
- Delivering the most feature rich and globally complete solution.

Now Banner® and PermitExpress™ work together!

BEIS (Banner Enterprise Identity Systems) enables relevant, real-time data sharing, so now you get the best of both solutions.

- Thanks to the integration between Banner® and PermitExpress™, Real-Time Validation is possible. This allows the system to automatically grant or deny the ability to purchase a parking permit. Access is based on your institution's business rules, which eliminates the need for manual processes.
- Students that purchase parking permits, or pay for parking citations online, can be given the option to pay with their Student Account. If this option is selected, the purchase will automatically be posted to their Banner® Student Account.
- Faculty and Staff that purchase parking permits through PermitExpress™ can be given the option to pay via Payroll Deduction. PermitExpress™ will notify Banner® of the intent to pay with Payroll Deduction, and with additional development, can even post the Payroll Deduction to Banner®.
- Schools can also create an automatic Hold to be placed on a person's Banner® Record for a specific parking enforcement reason, like an outstanding parking citation.
- Rydin PermitExpress™ will proactively notify your administrator should there ever be a communication failure that occurs between PermitExpress™ and Banner®.
