

PermitExpress™

MANAGEMENT SOFTWARE

What Your IT Director Wants to Know

About Rydin PermitExpress™

Rydin PermitExpress™ is a web-based parking management software solution that is centrally hosted “in the cloud.” Supported in most web browsers, this on-demand system is both secure and easy-to-use. With *no software to install*, your team will be up and running quickly.

Managed Hosting Solution with Rackspace

Rydin PermitExpress™ has dedicated, managed servers in multiple Rackspace Data Centers located in different parts of the country. Should one system fail, a complete mirrored server is ready to take its place.

Rackspace guarantees that network and critical infrastructure systems will be available 100% of the time in a given month, excluding scheduled maintenance. Rackspace partners with nine network providers to provide multiple redundancies in the flow of information to and from their data centers. Cisco and Arbor Networks continually work with Rackspace, ever-improving ways of monitoring and securing the network.

Secure System

PermitExpress™ uses advanced authentication security practices. All data is securely transmitted using SSL-256 bit encryption. Hashed passwords with per user salt adds an additional level of security. Access restrictions are also available to guarantee traffic to your PermitExpress™ portal pages can only come from links within your own website.

Supported Browsers

The beauty of PermitExpress™ as web-based software is that it is supported on any operating system. If your device has a browser, you can access PermitExpress™ - no plug-ins required. PermitExpress™ is supported by major browsers such as: Internet Explorer, Chrome, and Firefox.

System Integration

As an Ellucian® Partner, Rydin PermitExpress™ easily integrates with the Banner® Student Information System.

What Your IT Director Wants to Know

Ease Of Use

Rydin Decal reduces your IT Department's responsibilities by taking care of server equipment, database maintenance and backups, and all system administration and maintenance. There's nothing to install, and upgrades are automatic.

Data and Compatible File Formats

Easily import or export data via simple flat file formats like .csv and .txt. Reports and search results can be viewed as a webpage, downloaded as a .pdf, and exported to .csv or .xls.

PCI Compliant

Rydin PermitExpress™ meets all PCI Data Security Standards. Our software has been audited and approved by an independent third party, and we do not store any credit card information.

Rydin PermitExpress™ Mobile & Certified Devices

With the Rydin PermitExpress™ Mobile App., users can create, print, attach photos, and manage citations from approved Android devices. All Rydin PermitExpress™ Mobile Certified Devices have been tested, and provide the most reliable performance with the RPE Mobile App. The selected mobile devices connect via Bluetooth to the Zebra RW220™ mobile printer for hassle-free citation printing. To protect the devices, rugged cases are available, some with a sealing rating as high as IP68.

PermitExpress™ Updates and Maintenance

Rydin Decal reserves daily and weekly scheduled after-hours downtime to allow for regular system maintenance. The times and dates of scheduled downtime will be communicated to you in advance within the program and on the Home Page.
