TOWING & RECOVERY

TOW SIGNS & WARNING LABELS

TOW SIGNS

Our tow signs are made from a durable 75 mil plastic material that prevents denting, bending, or rusting. These signs are printed in one or two colors with fade-resistant inks. Add a clear laminate to even further protect your signs from the elements.

Customize your signs with your company name, logo, rates, and business information.

HANDICAP ACCESSIBLE SIGNS

Printed on 75 mil durable plastic vinyl with fade-resistant ink. These will not dent, bend, rust, or fade. Because these are made of durable plastic, they are easy-to-drill and can be mounted virtually anywhere. Use a 3/8" bit for a standard U-Channel post.

These signs can be customized to follow your state's handicap parking sign requirements.

Available with the universal Handicap Symbol (left) or the updated Accessible Icon (right).

WARNING LABELS

Our warning labels are printed on a difficult to remove florescent adhesive material.

Call/email us to create a custom label perfect for your company. Add a face slit to create an easy way to keep a record of vehicle information.

Stock warning labels can be found at www.rydin.com.

TEMPORARY PERMITS

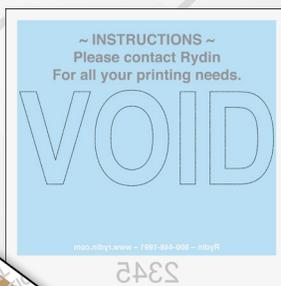

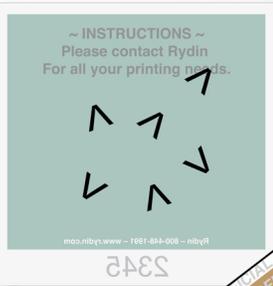

If you are looking for a low-cost solution for your lots, we suggest a temporary permit. These are good for up to 30 days of use and can be customized with text, logos, and colors.

PARKING PERMITS

This is where security begins. Our parking permits are made from high quality materials and can be customized to fit any and all of your company's needs.

Design your own permits online or contact your account rep to discuss designs over email or the phone. Any permit can be customized with text, colors, and logos. Sequential numbering and/or barcoding available too.

SECURITY FEATURES

Rydin supplies a variety of features that provide an additional level of security.

Reflective materials, watermarks, foil stamping, "void" polyester, holographic lamination, black-light ink, and security slits can be added to your decals and hang tags. Ask your account rep for more information.
