Rydin selects new Sales Manager

High School Sales team under new leadership

STREAMWOOD, Illinois – AUGUST 19, 2016 – Rydin, a parking management solutions provider, is pleased to announce the hiring of a new High School (HS) team sales manager. It is with great pride that Rydin promotes Tom Dee from his previous position as HS sales account representative to the manager position.

The hire concludes a two-week interview process and comes nearly a month after the manager position opened. During this time the Director of Sales, Mike Weiler, stepped in to fill the position. Weiler will continue to hold the interim position until September 19th, when Dee's account representative position can be filled by another new hire.

Originally from Forest Park, Illinois, Tom is 2012 graduate of the University of Dayton with a Bachelor of Arts in Mass Communication and Media Studies. He joined Rydin October 6th, 2014 and is looking forward to continuing his career at Rydin. "I'm very excited for the opportunity, and I am thrilled to be able to grow along side such talented people. It is a great honor to be able to progress here at Rydin, and work with such a remarkable team. I am looking forward to doing everything I can to help the team grow and achieve their goals."

When he is not working, Tom spends his time singing, playing the guitar and playing various sports including intramural soccer. He also enjoys spending time with friends over dinner, or going to see a movie. He is also heavily vested in the ultra-competitive Rydin fantasy football league!

About Rydin: For 60 years, Rydin has helped organizations across the country improve the efficiency and security of their parking programs through parking permits, permit distribution services and parking management software. Rydin takes great pride in their commitment to quality and customer satisfaction. Rydin PermitExpress™ has experienced rapid adoption by colleges and universities and continues to grow at a rapid pace since its release in 2010, with the community growing in size each year.
