R-62

Request a Quote

If you want a different material, back print, added security features, or maybe you just need some help with your permit design, please select the request a quote option instead and your designated account representative will contact you.

RO-31
CS-088

RV-43

Learn more about our Online Design Tool on page 23.

Design Online

Most of our standard hang tag and decal permits can be designed and ordered online. Change any part of the design and even add your own images using our Online Design Tool.

R-52

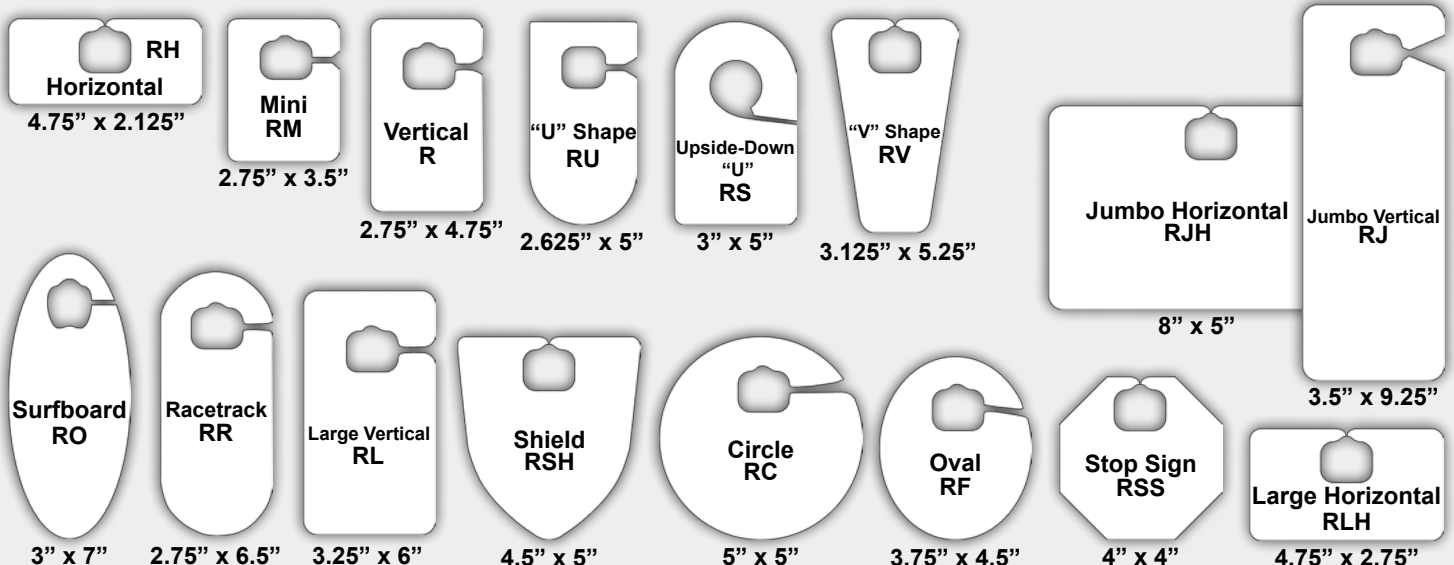

R-52

Microprint

This exciting new design adds a level of security without adding cost. The background reads "GENUINE SECURE" in a 1pt font that is impossible to photocopy.

Sequential Numbering

The easiest way to differentiate between permits is sequential numbering. All of our permits include sequential numbering printed on the front.

STANDARD DECAL PERMITS

Inside Window Vs. Bumper

Decals can be applied on the inside of a window or on the outside of any smooth surface. Inside-window application is the more popular option because it lessens the chance of your permits being vandalized or stolen. However, the bumper style may be better for your school if your permits will need to be adhered to tinted windows.

Liner Slits

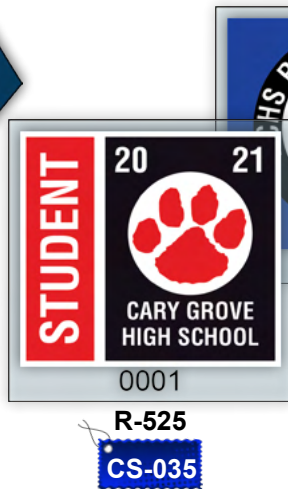

All of our standard decals come with a liner slit or a face slit. These slits make application easy and eliminate struggling with corners that won't peel.

Standard Materials

We offer two standard materials for decal permits: 2 mil clear polyester and 4 mil white vinyl. Standard inside window permits must be printed on the clear polyester, bumper style is printed on white vinyl.

Standard Shapes

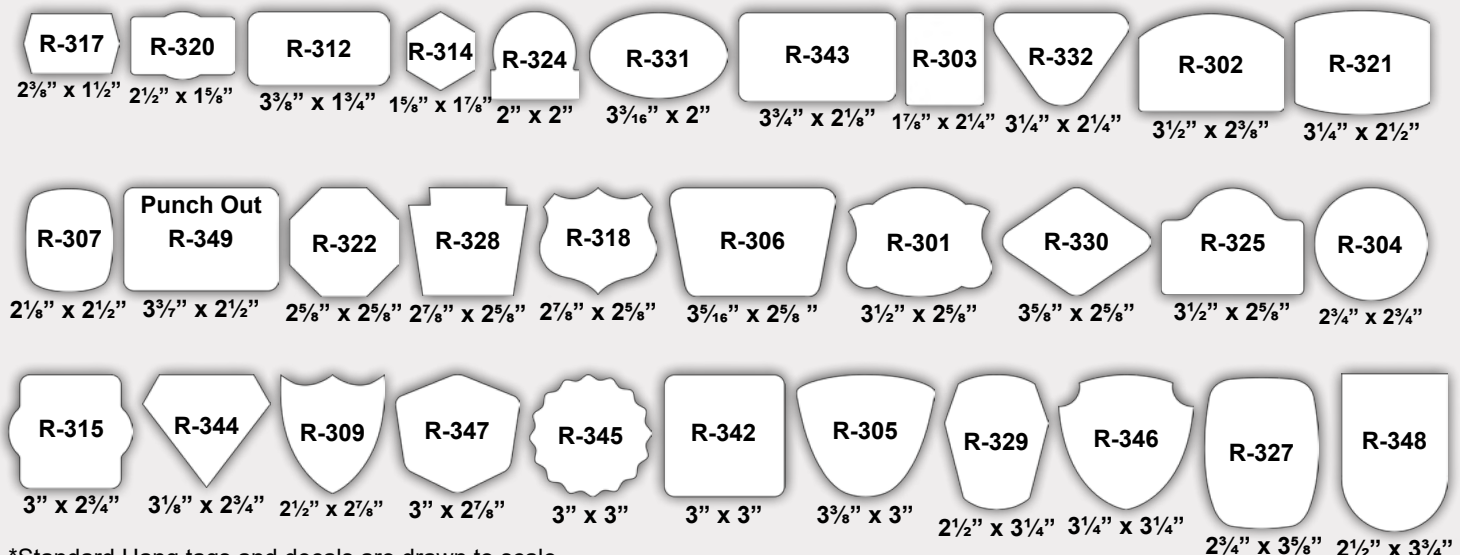

Hang tags and decals come in a variety of standard shapes. Our most popular shapes and sizes are shown below.

Chop-Cut

Need a simple square or rectangle decal? We can chop-cut that for you easily. Pick any width and height.

Full Color Photos

Using our Online Design Tool, you can add any high quality photo to your hang tag or decal permit design.

*Standard Hang tags and decals are drawn to scale.

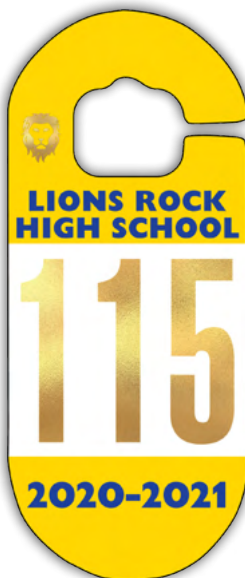

CUSTOM HANG TAG PERMITS

RL-35

Foil Stamped Hologram

RR-29

PrismCal® Pattern

PrismCal® can be added to both hang tags and decals. This light diffracting addition is eye-catching and impossible to counterfeit.

Extra Large Numbers

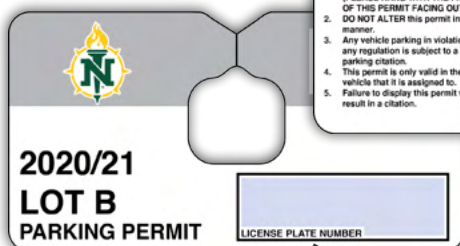

We can print your sequential numbers extra large so they can be seen from far away. For extra clarity, we can add Metallic BlastSM so they reflect light.

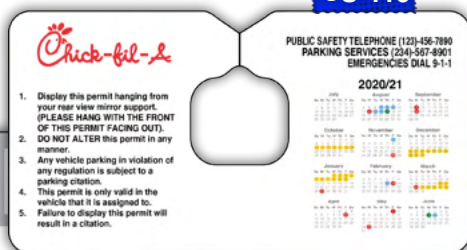

Custom Shape
PrismCal® Pattern

CS-130

Custom Size

CS-115

Sponsorships

Lower your permit costs by allowing a local business to advertise on the back of your permits.

RSS-7
Metallic BlastSM

CS-113

Hang Tags Vs. Decals

The biggest difference between hang tags and decals is that hang tags can be easily transferred between vehicles. With a couple exceptions, decals stay on one vehicle for their entire use.

Custom Shapes & Sizes

Rydin offers over 6,000 custom cutting dies for hang tags and decals. If we still don't have the shape you want, we will create a custom die tailored to your specific needs.

Abrasive Ink

To write on your permits with a pen or permanent marker, simply add abrasive ink to the writing location. Abrasive ink helps your writing adhere and also adds security. If someone tries to wipe off your information the ink will smear. This lets you know the permit has been tampered with.

Sequential Numbering

Numbers can be printed in any size, color, or style on our composite hang tags. Make your numbers shiny with Metallic BlastSM.

Send a Message

Parking permits work as an excellent medium for sending a message to students and faculty. Whether it be about a zero tolerance policy or a reminder to put their phones down while driving, these messages can make your schools safer for your students and faculty.

Backprint

Display instructions, sponsorships, important phone numbers, rules & regulations, and/or an academic calendar for students and faculty on the backs of their parking permits.

CUSTOM DECAL PERMITS

Silver Polyester

Silver polyester is an adhesive material that has a shiny silver surface. It can be used for bumper decals and provides added security by making your decals harder to counterfeit.

R-314

CS-064

R-322

PrismCal® Pattern

CS-021

Barcodes & QR Codes

Being able to scan a permit makes for faster permit verification and the elimination of keystroke error in the field. We use specific barcode symbology that will work with your scanner.

Barcode & Instructions on Back

Custom Metallic BlastSM

CS-124

R-342

Removable Vinyl

CS-109

Chop-Cut

CS-079

Security Slits

These small cuts can be added to many decals. When removed, the slits cause the permit to rip and tear apart. This makes your decal more destructible and harder to reapply.

Instructions on Back

Want to display a message to students and faculty while the permit is in their car? With inside window decals we can print your permit facing out and any message, map, calendar, or image on the back facing inside the car.

Liner Instructions

Include application instructions or directional information on the removable lining of your decal permits.

Metallic BlastSM

This process can be applied to both hang tags and decals. It creates a metallic, foil surface that is not only aesthetically pleasing, but instantly increases security and deters counterfeiting. Use this to accent your permits or completely cover them in colorful foil.

Request samples **CS-113** & **CS-124**

Removable

Want to be able to easily remove a permit without destroying it?

See Removable Materials on page 20.

Destructible

Any attempt to remove these decals will result in destruction of the permit and destroy any chance of reapplying it to another vehicle.

See Destructible Materials on page 20.

Semi-Destructible

When removed, these materials will tear, reducing the ability to transfer permits between vehicles.

See Semi-Destructible Materials on page 20.

TEMPORARY PERMITS

Paper Hang Tags

Rydin's paper hang tags are an efficient, cost-effective, and sustainable way to identify visitors. Our most popular temporary hang tag is the 2.75" by 4.75" vertical rectangle, but these can be made into any standard or custom shape.

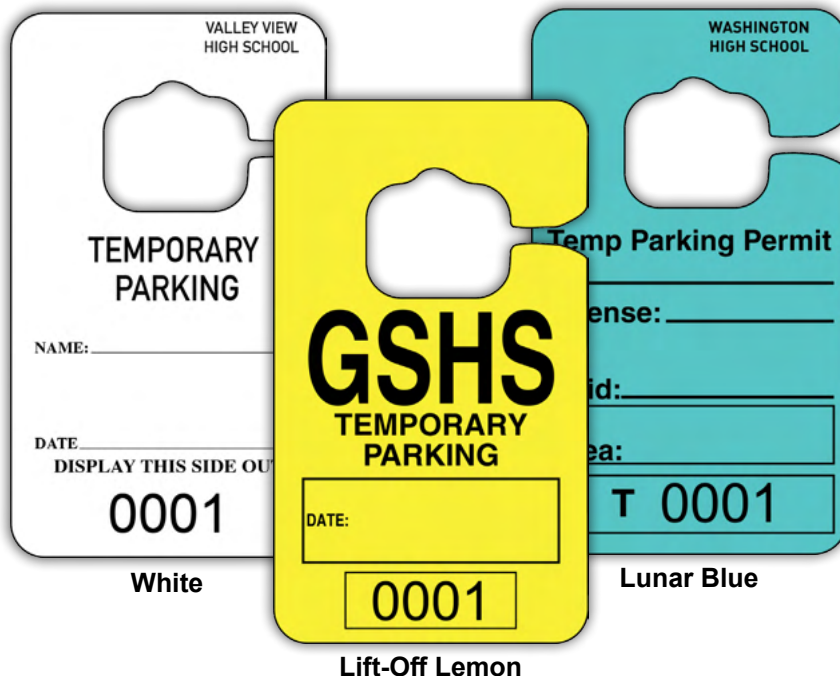

These paper hang tags are recyclable and many of the color options are made from post-consumer materials. Temporary paper hang tags can be printed on any of the following Astrobright Cover colors.

Astrobright® Color Chart:

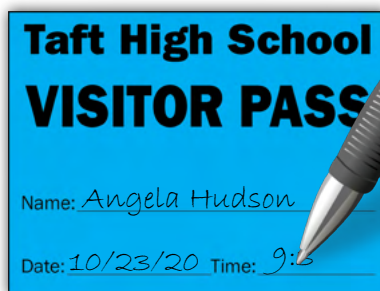

Other Temporary Materials:

- 14 mil Synthetic
- 100# White Gloss Cover
- 110# White Index

Visitor Passes

Printed on a Semi-Gloss Litho, these passes are destructible, pressure sensitive, and can be written on with pen or permanent marker.

VP-02

CS-120

14 mil Synthetic

Durable like plastic, but can be written on like paper! Ask for a sample and see for yourself!

These have a matte finish and can have any standard or custom design printed on them.

R-58

CS-136

MASCOT DECALS & HANG TAGS

Flash Your School's Colors

Customize the border color!

Mascot Parking Permits

Encourage, motivate, and promote your school. These permits are cut into fun mascot and sports inspired shapes. Decals can be adhered to the inside or outside of your student and faculty vehicles. Hang tags are great if you allow permits to be switched between vehicles.

Standard Mascot Shapes

We have over 35 standard mascot templates to shape your decals and hang tags.

Request samples [CS-042](#) & [CS-094](#)

Customize to Your School

If we don't have a specific mascot we can still create the perfect permit for your school. We will create a custom cutting die in any shape you need. Or, easily modify any of our standard designs to fit your school's mascot.

Eagle, Hawk, or Falcon?

Metallic BlastSM on a Mascot

Light-up your mascot by adding reflective features. Our mascot photo hang tags can be made more secure and visible at night with the addition of Metallic BlastSM

DOOR SIGN INSERTS

Room Sign Inserts

These signs can be printed on a variety of thicknesses ranging from 23 mil to 75 mil. Custom fonts and colors available. These are the perfect solution for marking rooms. They easily slide into frames or can be mounted directly to the wall or door.

HALL PASSES

Standard

Our standard hall passes are printed in one color on white 23 mil Polyethylene. This material has an easy to write on matte surface. There sizes are 10" by 2.75" and 6" by 4", but any custom size can be created.

Customize It

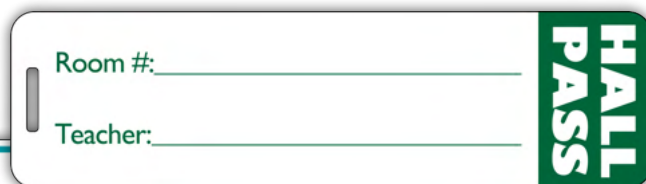

We can print anything onto your hall passes. Add a school photo, mascot, or room numbers.

Dry-Erase Hall Passes

Any of our hall passes can be printed on 25 mil composite giving it an instant dry-erase surface. This means you can write a students name or a time on the pass so they can only be used for one student and for a specific time.

Credential Style

Printing hall passes on a credential style pass allows you to attach your school lanyards to them.

Custom Parking Tickets

Keep record of parking violations with our non-carbon receipts. Tear off the first copy for your records and issue the hard copy to the violator. These are sequentially numbered making record keeping simple. All layers will have the exact same text printed on them.

Customize It

Anything can be printed on these NCR violation tickets. Really, anything.

They have plenty of space for your school's name and extensive vehicle information, there's even room for your logo or mascot. These are digitally printed, meaning you can print multiple colors on your NCR's.

Two to Four Layers

While our standard option is the three layer NCR, we can also do a simple two layer for the same price, or customize it and add a fourth page.

Citation Books

Books can be either bound with adhesive or staples into packs of 25 with wrap-around covers. Wrap-around covers can be used to separate tickets and prevent the next ticket from being ruined. Keeping your non-carbon receipts bound adds convenience and organization to the citation process.

Wrap-Around Covers

These covers are made with 110# Ivory Index making them a sturdier surface to write on. Sequential numbers are printed on the covers to easily identify their contents.

Request sample

CS-123

NAME BADGES

Name Badges

Identify your employees, visitors, contractors and vendors on school property. Because these have lanyard clip slits they can be attached directly to your school's lanyards and don't require an ID pouch.

Barcoding

Increase security in your school with barcodes on your faculty photo ID's.

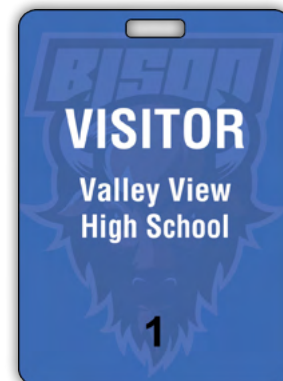

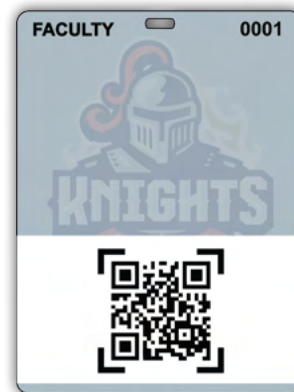

See page 21 for more information on Barcodes

QR Codes

Link ID's to digital text, or a URL to a website. Scan with any smartphone as opposed to barcodes that can only be read with a barcode scanner.

Self-Laminating Credentials

Insert your own photos with our self-laminating credentials. After adhered the lamination is permanent and will not easily peel up.

CRISIS DECALS

Crisis Decals

From ID cards to bathroom mirrors, these stickers can be placed anywhere in your school to assure your students have the information they need to get help in a crisis.

Join the Movement

Across the U.S. high schools and universities have been adding mental health and suicide prevention crisis numbers to student ID cards. These decals give students access to immediate help if they need it.

Lifeline

If you or someone you know is in crisis, please call the toll-free Lifeline at 800-273-8255 to speak with a trained crisis counselor.

VALIDATOR STICKERS

VL-04
Hologram

Custom Shape

Validators

These little stickers are a great way to validate parking permits and ID's. These can have words, numbers, or even one color images printed on them. Use them to identify students who have a different arrival time, or to validate their parking permit for the semester.

Holograms & Void

Make your validators impossible to counterfeit or reuse. Printing on hologram materials ensures no one will be able to recreate their own. Void materials are also available. These are all semi-destructible which makes them non-transferable.

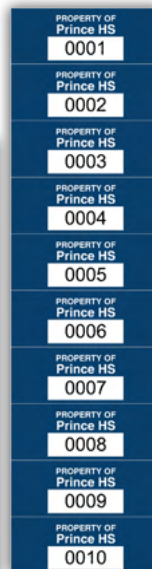

Standard Sizes

VL-01: 1" x 1/4"	VL-02: 1/2" x 1/2"
VL-03: 3/4" x 1/2"	VL-04: 1" x 1/2"
VL-05: 1 1/2" x 1/2"	VL-06: 3/4" x 3/4"
VL-07: 1" x 3/4"	

PROPERTY ID LABELS

Reflective
Semi-Destructible

R-4400
2" x 0.75"

Property ID Labels

Keep inventory of your school's valuables. Computer or laptop ID labels are a great way to protect your equipment from being stolen. These make it easy record which students are renting or borrowing your equipment to ensure your property is returned.

Customize It

We can add your name, logo, phone numbers, addresses, barcodes, or sequential numbers to help keep track of your school's property.

Materials

Ask for semi-destructible materials that will deter students from transferring labels to other items.

SPECIAL EVENT TICKETS

Perfect for:

- Commencement
- Prom
- Homecoming
- Themed Dances
- Musicals & Plays
- Sports Events

Commencement Tickets

Graduation is the most important event for a high school student. Make it an extra special memory with a keepsake ticket from Rydin.

Metallic BlastSM

All of our standard keepsake ticket themes come with Metallic BlastSM foil.

Dance Themes

Customize your tickets, or choose from one of our standard designs: Ballroom, Couples Dancing, Homecoming, Paris, Hollywood, Stars, Diamonds, Valentines, Arabian Nights Masquerade, Masq Ball, and Great Gatsby. Go online to view the collection.

Sponsorships

This is a great product to have sponsored by local businesses.

Standard Tickets Styles:

Both ticket styles are printed on a rigid paper with a glossy finish. Sequential numbering is included.

Keepsake Tickets (TK-01)

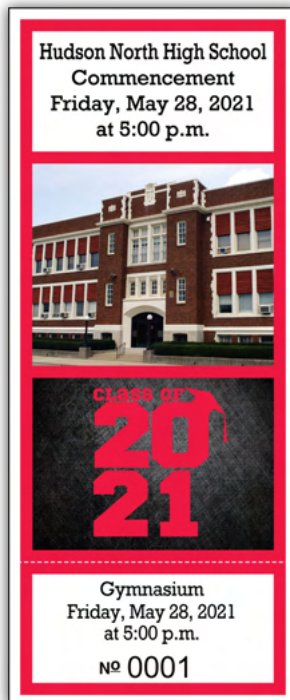

If you want to offer a quality ticket for your students that they will want to keep forever our keepsake tickets are for you. These are the larger of our ticket styles at 3" by 7.25". They come with a perforated stub and a Metallic BlastTM design.

Mini Tickets (TK-02)

An economical solution is our 2" by 5.25" mini tickets. Because of their small size they fit easily into a clutch or pocket.

Backprint

Add your event's rules, dress code, or sponsored content.

Credentials

Restrict access to specific areas before, during, and after athletic events. We have materials ranging from 100# gloss cover to 30 mil composite and sizes range from 3" by 4.25" to 3.25" by 6.25". Ask your account rep for their recommendations.

Made Just for You

Tell us what size you want, how you plan on displaying it, and what you want on it. We offer both lanyard/badge clip slots and circular holes. If you plan on putting a credential in a reusable pouch we also offer a card style credential.

Parking

Offering preferred parking during games for a premium is a great way to bring in extra funds for your school and reward boosters.

See our hang tags on pages 4 & 6.

Season Pass Cards

These are printed on a thicker 30 mil Composite. The standard size is 3.125" by 2.125"; the price and size are the perfect fit for your wallet.

Credential Style Passes

These are usually larger than the cards and come with lanyard clip slits.

Punch-Out Cards

Turn any season pass into a punch-out card by adding punchable icons or numbers. This can be used for pre-paid games, or as a loyalty card for your concession stand.

Other Uses

The fundraising possibilities are endless. Collaborate with local businesses for discount cards. Sell punch-cards that can be used at the bookstore or cafeteria.

Everything is 100% customizable, so you are free to get creative.

SCHOOL SPIRIT

Sports & Clubs

Show school spirit with Rydin's stickers and magnets. We have a multitude of different shapes and sizes so any sport or club can be represented.

Unique Products

All of your decals don't need to be have the same layout. Ordering from Rydin means you can put different names and jersey numbers on each of your decals.

Magnets

We can turn any decal or sticker into a magnet. Magnets are easy to remove or reposition. We offer both Indoor and outdoor magnets made from durable, quality materials. Add purpose to your magnets by including a sports calendar or a list of important phone numbers.

Magnets can be stuck to anything metal, from your kitchen fridge to the back of your car.

Stickers

Bumper Stickers

Rydin's honor roll bumper stickers are a great way for parents to show pride in their student's hard work. These 11" by 3" stickers are printed on white vinyl and can be customized with your school's name and mascot.

But don't stop there, we can put anything on a bumper sticker.

Window Stickers

These can be printed on a clear polyester so that only the printed area is visible. We can create your school's name sticker in any color or font.

Standard Templates

Our standard Ink-Itz template comes cut into 12 stickers. Send us your school mascot and/or logo and we can create your school's Ink-Itz.

CS-146

100% Customizable

Like everything else we offer, these are completely customizable. Put the same logo on all 11 stickers, or mix it up. Pick your own images, fonts, colors, anything goes with Ink-Itz!

Color Me!

Because Ink-Itz are printed on a white vinyl material they can be colored with permanent markers. Let your students create unique looks for their tech.

Removable

You won't have to worry about ruining your school's or your student's laptops, tablets, and phones with these removable stickers. After they are done renting your equipment they can take the stickers off and no one will ever know it was there. As an added bonus, Ink-Itz provide a thin layer of protection.

As Easy as 1 2 3!

1) Upload Permit and Mailing Data to Rydin

Upload a CSV file with your students names, mailing addresses, and permit specs to our secure site. Our data processing team will immediately begin preparing your files for processing.

2) Parking Permit Packets are Prepared for Mailing

Our team will collate each parking permit into an envelope, along with an introduction letter. You can choose to include other important literature, such as:

- News & Updates
- Frequently Asked Questions
- Parking Rules & Regulations
- School Map
- Academic Calendar

Orders can be processed and in the mail within 48 hours, or held to be sent on a specific date.

3) Permits are Mailed to Your Students and Faculty

The parking permits are sent directly to your students, faculty, and staff!

You will receive an updated database that indicates who received which permit number and when their packet was sent.

This hands-free process makes it easy!

Rydin Distribution Services

Distributing parking permits to your students and faculty is a time-consuming and tedious task. Optimize your staff's time and increase efficiency with Rydin Distribution Services.

Direct Mail

Our experts will prepare your parking permits with any other inserts, and mail them directly to your students, faculty, and staff.

Send as Needed

You don't need to send all of your permits out at once if you don't want to. Allow students and staff to receive their permits as they purchase or register for them. Any new hires or students throughout the year will be able to get their permit sent to them even if they missed the registration period.

We Store the Extras

It's always a good idea to get extras, but no one wants to deal with keeping track of them. We can hold on to any that aren't used and send them to you as you require them.

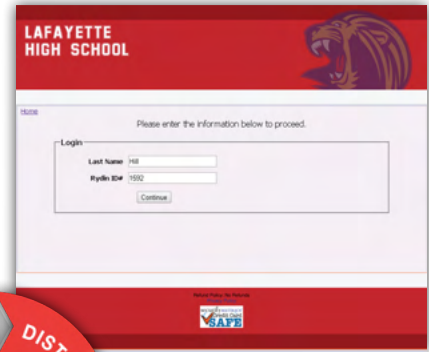

RPE Not Required

We offer our distribution service to anyone, not just those who use our parking management software.

Online Registration

Rydin will help you create an online registration site through our web portal that will look like a natural extension of your institution's existing website and branding. Then sit back as the drivers input their own registration information, and watch permit orders flow into your administrative database in real time.

Distribution & Payment

You can still choose to collect cash and check payments in person, and distribute the permits yourself. OR, let Rydin help by creating an E-commerce account for you. Drivers can pay online using a debit or credit card and the permit will be mailed directly to them. Our software offers a temporary permit via email at the end of the online registration to use during the interim.

Citations

If you use citations as a consequence for not complying with your parking policies, you can access their information from a hand-held Android device using our free RPE mobile app. Search by license plate number to determine if the vehicle is associated with a permit registered to your school. You may also take and store date and time stamped pictures of the infraction on the app.

Your students and faculty can pay or dispute fines through the RPE portal. This keeps cases organized and increases fine payment rates.

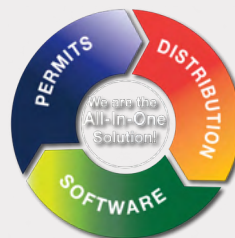

Our Team is Here for You

Most schools are aware of online parking registration and enforcement software, but are afraid that big initial expenditures will keep it from being approved. Our team will work with you using a series of online meetings to set up, install, and train you on the administrative side of the software. No servers to buy. No weeks of on-site installation to endure.

About RPE

Rydin PermitExpress® is a cloud-based parking management solution that covers registration, distribution, and citation for your school.

Our system is secure and easy-to-use. There is no software to install and citations can be issued on-site with our RPE app.

Case Study

Lafayette High School in Lafayette, LA. With 350 students requiring parking permits each year it took nearly four weeks to process the parking permit applications and organize lot assignments. With Rydin PermitExpress® the time this took was reduced to hours instead of weeks. This was accomplished by implementing online parking permit sales through the RPE web portal, distributing the permits through Rydin's Permit Distribution, and using the search function in the RPE Mobile App to quickly update student records.

WHY CHOOSE RYDIN?

Liner Instructions

Put the permit application instructions on the removable liner.

Back Print

Include information such as rules and regulations or emergency numbers that will remain in the vehicle for the duration of the permit's use. Other popular forms of back print are facility maps, advertisements, and motivational messages.

Adhesive Strips

Two-sided tape is applied to the back of the finished product. Remove the tape liner and to adhere a temporary permit, law enforcement tickets or placards to the outside of the window.

Abrasive Ink

This is an ink that can be applied to areas that need to be written on at the time of permit distribution. It allows the user to write on the permit with multiple types of pens and markers.

String Loops

Loops made of elastic string can be made in various lengths and attached to individual permits, badges, or hall passes.

Colored Numbers

Add color to your sequential numbering. This adds a level of security to your permits.

Polybagging

Simplify your distribution process. Permits can be delivered to you in a roll of clear plastic bags in a box. Permits can be easily pulled from the box in sequential order and torn off at perforations between each bag. This is a great way to organize and store your permits.

Piggyback Labeling

We can apply labels to the outside of your polybags. They display the sequential number of it's contents along with a barcode. A corresponding human readable number is available as well. This makes scanning the label at the point-of-sale a breeze.

Glassine Bags

Each product is placed in a separate transparent bag. These bags are open on one end and do not come in a continuous roll like polybagging. This keeps your permits dust and scratch free and simplifies distribution.

Shrink-Wrapping

Shrink-wrapping adds a layer of protection to your products and bundles them in sequential order. This service creates convenient-sized packs allowing for easier handling and distribution of your printed products.

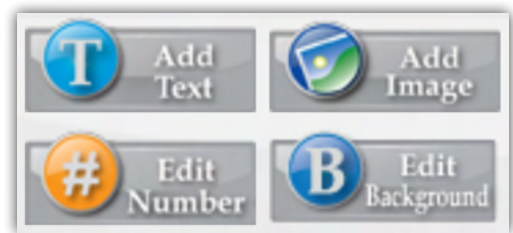

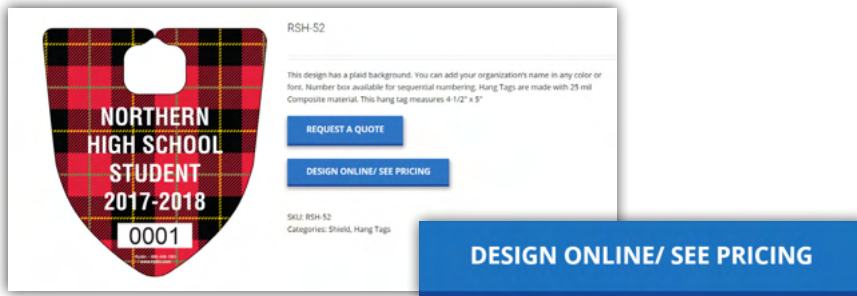

Book Binding

Permits, tickets and NCR's can be turned into books. Books can be either adhesive bound or stapled. Book binding can improve the process of distributing materials.

Questions?

Talk to your dedicated account representative.

(800) 448-1991

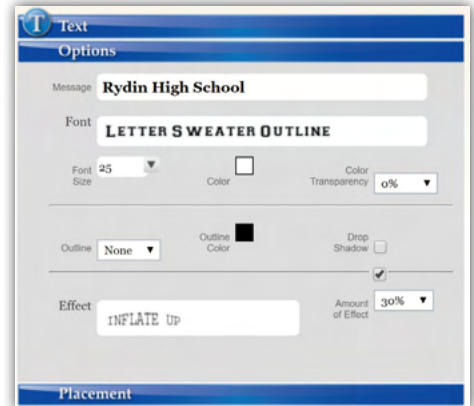

Start Your Design

For this tutorial we chose a red plaid shield shaped hang tag (RSH-52).

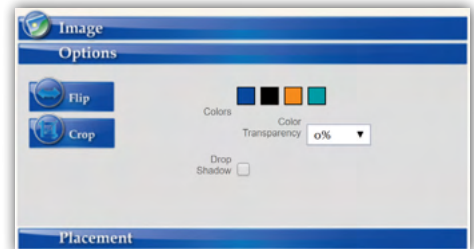

Add Your Text

We start by clicking the “Add Text” button and changing the message text to “Rydin High School”. Text font, size, and color all have drop-down menus. We also added a drop shadow to add dimension. If you would like to add an outline or a font effect we have those too.

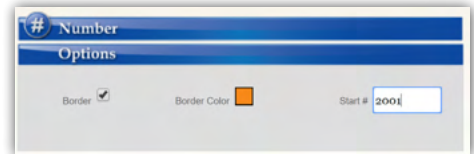

Change the Background Colors

Most of our backgrounds can be edited by clicking on the pattern. This will open a set of colors you can change.

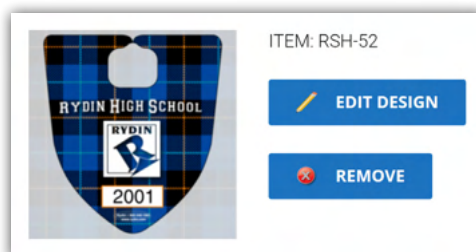

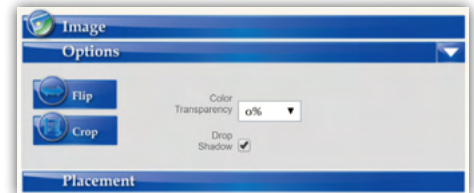

Edit Your Sequential Number

If you want your number to start at somewhere other than 0001 you can! Use the “Start #” box to change it to any four-digit number. Here you can also remove the border or change its color.

Add a Logo or Mascot

Click the “Add Image” button to either choose an image from our extensive library or upload your own. Here you can change its transparency and add a drop shadow.

Add Your Design to Your Cart

Add a quantity and click the “Next Step” button. Now you can look at your proof and approve it. After it gets added to your cart you can still go back and edit your design.
