Making an Imprint

Why Rydin?

Experts in Printing

At Rydin, we deliver solutions that allow you to easily **manage authorized access, identify assets,** and **communicate critical information.** We provide printed parking management, permitting, informational, safety, and authorized access solutions for a multitude of industries.

Customer Commitment

At Rydin, we've got your back! Whether it's a focus on your daily goals or to establish a security or distribution protocol that works with your systems. Your dedicated Account Representative and the whole team at Rydin is working with your success in mind.

Customized Solutions

From customized variable data inclusive parking permits to credentials and warning materials, we develop purpose-built solutions. Choose from several thousand available designs, including hundreds of available die-cut shapes, or we can develop a completely custom piece unique to your organization.

Security

Securing your facility with permits and credentials while protecting against counterfeiting and fraudulent reproduction is where Rydin can help. From RFID technology to our proprietary Metallic Blast℠ Holograms, securing access and your assets is our top priority.

Material Distribution

Need a turnkey solution to get your permits, or materials in the hands of the end user? We'll develop a distribution program that makes things easy for your team. For manufacturing customers we can even manage a **Just-In-Time** inventory/shipping program to meet your production requirements. Daily, weekly, or monthly shipments of pre-printed items can help you save money and time.

Quality Guaranteed

For 65 years, our mission has been simple - we're committed to delivering high-quality print solutions. As a true partner, you'll interface with a dedicated print solutions Account Representative who will guide you through the process of developing your custom solution.

65 YEARS OF MAKING AN IMPRINT

Parking Passes & Permits

Rydin is an expert in custom printed parking pass solutions. Our team is available to assist you in developing a parking program that allows you to securely identify and provide authorized access to your properties.

Customizing your program with an application that fits your needs is easy with Rydin. You can choose from our 6000+ available shapes and standard designs or create your own unique look and shape. Hang tags, decals, and/or unique application options like Motorcycle or Bicycle permits can help you manage your parking and identification program in an easy and consistent way.

Hang Tags

Secure Identification:
Hang tags can be an integral part of your permitting strategy. Hundreds of shapes - even custom - as well as a variety of security features mean you'll be able to offer a secure, hard to counterfeit identification solution. Hang tags can be transferred from vehicle to vehicle and are easy for your enforcement staff to see at a distance.

Decals

Decals for Permanent Identification
Want a customizable solution with hundreds of available shapes, that's a more permanent and secure solution? Incorporate decals into your permitting plans! Decals are non-transferable and offer a variety of security features, including self-destructive technology, that can be added.

Motorcycle and Bicycle Permits

Bicycle Decals are a great way to provide anti-theft protection for your cyclists.

Motorcycle Tags can be attached with a zip-tie or metal ring and eliminate the hassle of removing sticky adhesive from a bike.

CLICK HERE FOR MATERIALS & SECURITY FEATURES

Temporary Permits

Paper Hang Tags

Rydin's paper hang tags are an efficient and cost-effective way to identify visitors, contractors, and vendors. These are available in a number of materials, including recyclable options.

Astrobright Color Chart

Made from recycled materials.

Perforated permits make bookkeeping easy. Hold on to the stub for your records.

Available Materials:
- 65# Astrobright
  - 23 Standard Colors
- 14mil Synthetic
  - Durable extended life.
- 100# White Gloss Cover
- 110# White Index

Paper Decals

Adhesive strips can be added to the face of paper parking passes to adhere them to the window.

Semi-Gloss Litho

Create a visitor pass that rips like paper, but has more durability. This material helps create a professional temporary name tag that won't leave any sticky residue on your guest's clothing.

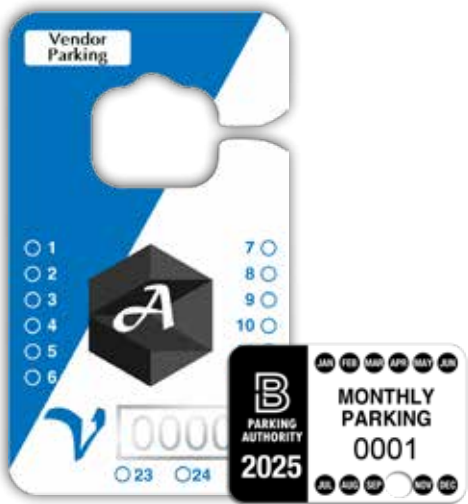

Secure Temporary Permits

Our Scratch-Off, Punch-Out, and Self-Laminating permits allow you to assign an expiration date and other crucial information when you issue the permit. If more than one date is exposed or punched, the permit is rendered invalid in accord with your enforcement process. As with all Rydin's products, you can customize your temporary permits to suit your needs.

Scratch-Off   Punch-Out   Self-Laminating

- Large, easy-to-read numbers
- Room for your logo
- Write-in areas for point-of-authorization information
- Full-Color images

Organize your temporary permits in convenient Permit Books. Tear them out as you need them and never get out of order again.

Customized & Secure

Choose from over 6,000 custom die shapes or create your own! Add Security Features for peace of mind!

Customization is our specialty!

Add shape and security to your access control products with Rydin! We offer over 6,000 custom dies and many different security features that provide design flexibility when typical standard products may not fit your requirements. If we don't have what you're looking for, we can always create a customized permit or product that is tailored to your needs.

Sequential Numbering

Rydin Specializes in Variable Data. It can be applied to any of our products. Depending on the choice of materials and the production method, sequential numbering can also have a variety of styles and variations.

Barcodes

Make verifying parking permits faster and eliminate keystroke error in the field. We use the specific barcode symbology (language) that works with your scanning system. Two of the more common barcode languages are 3 of 9 and 128.

Secure your permit with our standard microprint text **"GENUINE SECURE"** or with any other message. These permits will be distorted if photocopied.

PrismCal® Pattern

This light diffracting, security feature is eye-catching and impossible to counterfeit. It can be added to both hang tags and decals.

Holographic Security Laminate

Our **"Eagle Secure"** laminate contains a holographic eagle and key pattern that cannot be photocopied or duplicated. This can be added to any of our composite materials.

Metallic Blast^SM

is our latest digital method of adding foil to your permits. Almost any color foil can be created using **Metallic Blast^SM.** It looks great on a hang tag or decal, and can be used on almost any part of your permit – logo, graphics, text, number box, sequence number and more can utilize our Metallic Blast^SM

Don't Forget the Back

The Permit Back is highly visible and can contain important information and instructions.
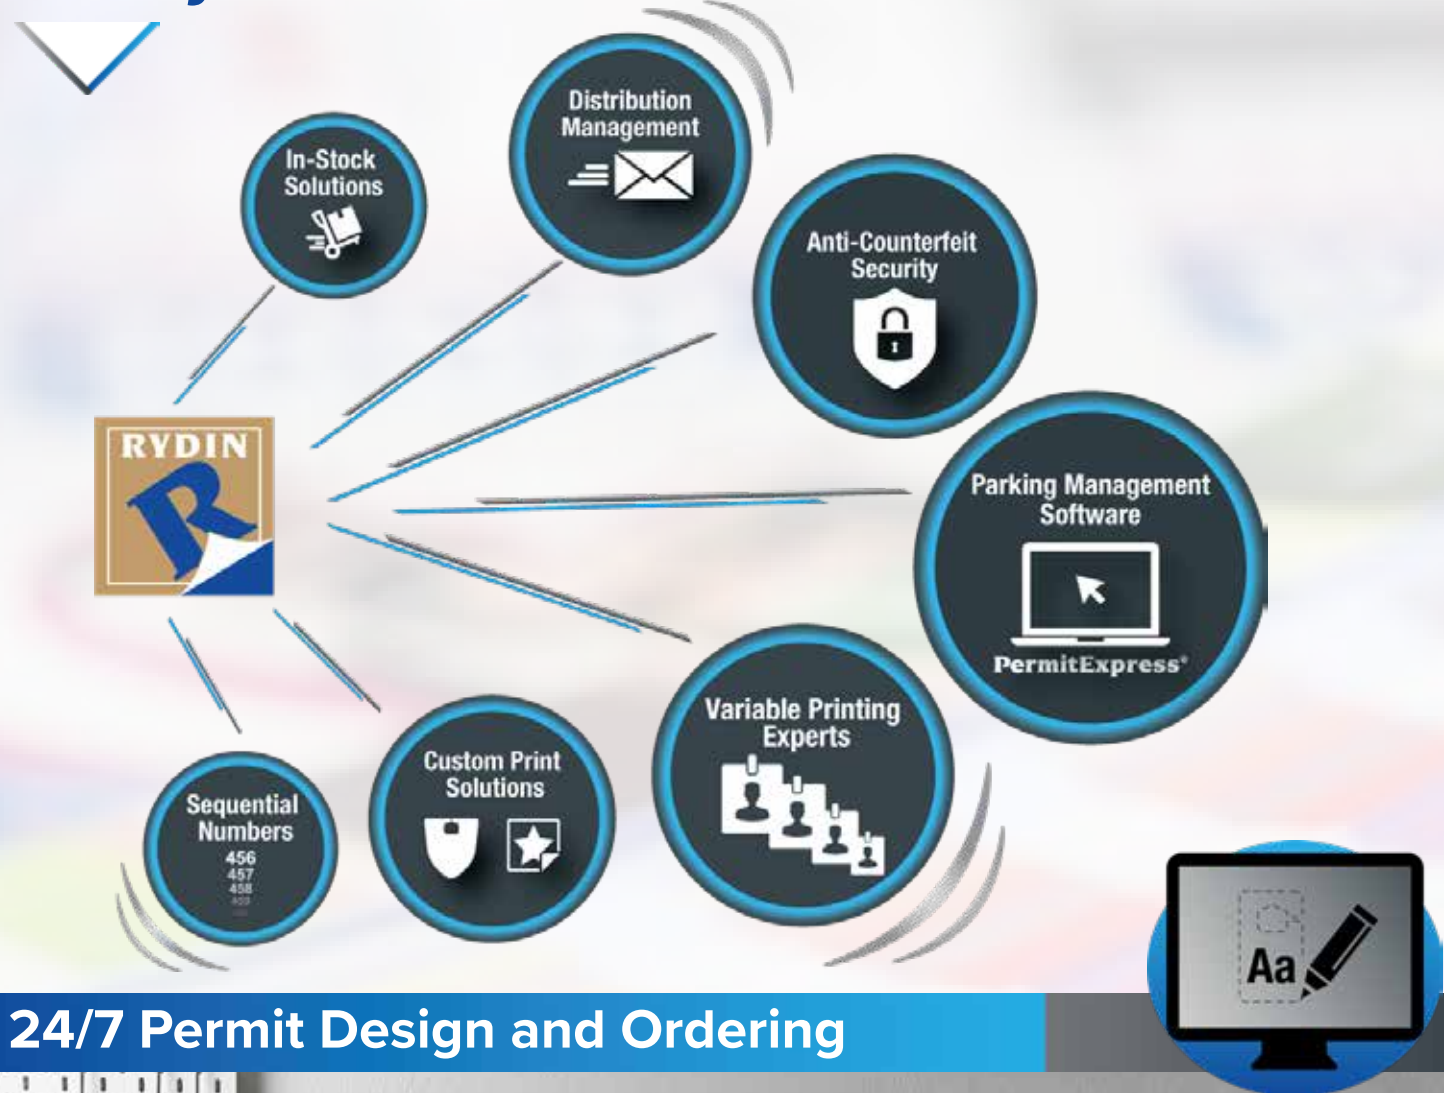

- **Exposure**
- **Savings**
- **Revenue**

Add a benefit for your permit holders by making the back available for sponsorships. Sponsors get in front of potential customers, who can save with a special offer, while you gain revenue.

The Rydin Difference - Services & Solutions

Finishing Touches

Easily manage the application, distribution and use of your printed products with a variety of post-printing finishing options.

- **Polybagging** simplifies your distribution process. Decals are bagged and placed in a box sequentially for easy one by one distribution.

- **Piggy-Back Labeling and Barcoding:** Add an identifying label or code to the exterior of your polybagged decals. Shows the sequential number and can allow distribution point scanning.

- **Glue Dots:** Non-marking glue dots allow your permits to adhere to another surface - but be easily and cleanly removed.

- **Adhesive Strips:** Great for enforcement and temporary permits/notices. Two adhesive strips are added for a strong, yet temporary adhesion.

- **Elastic String Loops:** Help secure an event credential or identification item.

- **Shrink-Wrapping:** Protect your items and assure damage free storage.

- **Glassine Bags:** Keep your permits scratch free for distribution.

- **Book Binding:** For ease of use, permits can be bound into book form.

24/7 Permit Design and Ordering

Need a simple parking pass that's customized per your specifications? With our **Online Design Tool**, you can select one of our standard hang tags or decals, add in your custom information, and it will be **shipped within 10 business days.**

- Hundreds of Designs
- Library of standard images and fonts
- Add your own Logo
- Includes sequential numbers

Instructions and Special Messaging

Liner Instructions: Each item can carry your specific message on a removable liner.

Scannable Codes Add a QR Code to provide access to special messaging on your website or allow scanned identification via a barcode.

Add instructions, special notices, important contact information or any other custom message to efficiently provide data to your users.

Ads / Event Alerts: Promote your brand message, or detail a specific event - or even critical information on the back of almost any permit or tag.

Facility Messaging

Messaging, whether critical, warning, safety, or informational is an important aspect of managing any public or private facility.   We can provide highly visible temporary or permanent signage for whatever need you have throughout your various facilities.

Employees Must Wash Hands
WET — Wet hands under warm water. Mójese las manos.
WASH — Wash hands with soap for 20 seconds. Enjabónese. Friéguese las manos por 20 segundos.
RINSE — Rinse hands under warm water. Enjuáguese.
DRY — Dry hands. Turn off water with paper towel. Séquese las manos. Cierre el grifo usando una toalla de papel.

Education - Access/Identification/Safety

Parking Permits

Identification and Safety

Identifying users and providing authorized access is critical for the safety of any facility - but even more so for school environments.

A safe and secure Parking Permit program allows for identification of authorized vehicles and is an effective solution to keep track of who is on campus at any given time.

Choose from thousands of available shapes and patterns, or let us create a custom shape for your mascot or logo to instill school pride and create a truly unique and secure parking permit program.

Or, your logo on any custom shape.

Thousands of available Hang Tag and Decal shapes and designs

Parent Pick-Up & Backpack Tags

Who's Picking Up the Kids?
Our matched set Backpack Tags connect an authorized guardian with each student. Secured to the student's backpack, and on the guardian's vehicle, it's easy to confirm identity at a glance.

End Pick-Up Stress
Traffic safety - and most importantly student safety are critical for all elementary schools. Rydin's Parent Pick-Up Tags end the typical after school chaos by identifying "Walkers", "Car-Riders", and "Bus" students.

For more solutions click here!

Advertising/Sponsorship

Partnerships

A Win-Win!

Need to get your message to your local community?

- Partner with a school in your area!
- Advertise on permits or parent pick-up tags
- Your message will be seen every day

Looking for a partner to help defray your Permit or Parent Pick-Up program expenses?

- Partner with a local business!
- Allow local businesses to advertise on your permits or passes
- Parents learn about local business and a great local offers
- Can save on expense of the permit/pass program

Local & National Sponsorships

Schools

Partner with locally owned or even national businesses that want to support your school. Sponsorships are a great way to defray some or all of the production costs while providing a great benefit to your permit or tag holders.

Just-In-Time Manufacturing Inventory Management

Distribution Options

## ADVANCED SERVICES - Just in Time

Print. Store. Ship

Need help maintaining minimum inventory and responding to production needs?

Using the principles of Lean Manufacturing, Rydin's **JUST IN TIME Materials and Inventory Program** can help keep your processes flowing, while lowering costs. Instead of printing on demand, we'll work with your team to develop a production schedule that matches your needs. With economies of scale, no warehousing costs, and on-demand shipping, you'll experience a lower per-unit exposure while operating at the utmost in efficiency.

Rydin will be your production partner offering continuously monitored inventory, maximized logistics control, and of course cost containment.

Permit Distribution

Print - Pack - Deliver

You've developed your access or parking plan, created a secure, counterfeit protected permit, and now it's time for distributing your passes to the end user. Rydin's Permit Distribution Service makes the process extremely easy. No need to hire extra staff - or disrupt regular operations and no long lines or upset pass holders. Our turnkey solution gets your passes directly into the hands of your users easily and hassle free.

Rydin Permit Express

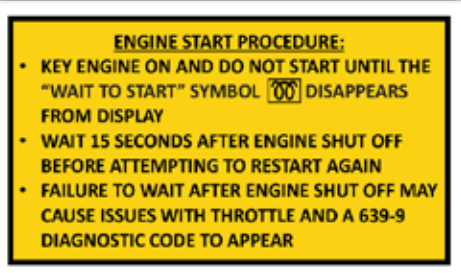

Permit Management Software is a complete web-based permitting solution that allows you to manage your parking program automatically. It puts you in control, saves time, reduces in-person lines and extra staff hours, and allows for citation tracking and payment— all on one easy to use platform.

- •**Registration**
- •**Distribution**
- •**Management**
- •**Citation/Fee Collection**

Equipment Labels

Add warnings, instructions, or any other helpful information to your equipment. Rydin's equipment labels are made to withstand both demanding indoor and outdoor environments.

ENGINE START PROCEDURE:
- KEY ENGINE ON AND DO NOT START UNTIL THE "WAIT TO START" SYMBOL DISAPPEARS FROM DISPLAY
- WAIT 15 SECONDS AFTER ENGINE SHUT OFF BEFORE ATTEMPTING TO RESTART AGAIN
- FAILURE TO WAIT AFTER ENGINE SHUT OFF MAY CAUSE ISSUES WITH THROTTLE AND A 639-9 DIAGNOSTIC CODE TO APPEAR

Asset Identification

Property I.D. Labels

To protect your equipment from being stolen, Property ID labels are a great asset for your organization. You can customize these decals with your company name, logo, phone number, address, scannable codes, or sequential numbering. For added security, our ID labels can be printed on a semi-destructible material that will deter users from removing the label from your equipment.

Barcodes

A barcode can be added to any product to easily manage your equipment and regulate your inventory.
